THE improvents to the old building formerly occupied by the Massey Co., are now completed and make a decided improvement to the look of Main street.

Now that the winter has thoroughly set in and sleighing good those who are in the habit of driving, ought to supply themselves with sleighs bells, several teams and single drivers go about town without them which makes it very dangerous for pedestrians and especially at night.

EXPERIMENTS have been conducted by the Admiralty at Portsmouth with the object of determining the comparative merits of gun powder and cordite for repelling torpedoes from ships. It is said that the latter explosive possesses greater energy, and is less likely to foul the tube.

"CANADA" this month is better than ever. The original articles are bright and interesting, and much judgment is shown in the selections. All the departments are well sustained. A four page supplement, containing a fine variety of reading matter, with clubbing lists, premium offers, etc., accompanies the issue. The paper is a marvel of cheapness at the regular price, 50 cents a year; and the publisher offers to send it a whole year for 25 cents in stamps if the subscription is remitted before New Year's Day. Address; Matthew R. Knight, Hampton, New Brunswick.

SUPREME COURT.

Daly vs. Robertson—This case was tried before Judge Rouleau, at Edmonton, on the 11th May. N. D. Beck for plaintiff; S. S. Taylor for defendant. Judgment was reserved until the 20th June when the judge decided in favor of the plaintiff, declaring that the strip of land 33 feet wide west of lot 25, block "A," river lot 12, as a public highway having been dedicated as such to the public by the defendant and his co-partners on the 2nd April, 1888. From this judgment the defendant appealed to the full court at Regina. The appeal was argued on the 6th December; Mr. McCarthy, Q. C., of Calgary, appearing for the defendant, the appellant, and D. L. Scott, Q. C., of Regina, for the plaintiff, the respondent. The decision of the full court is in favor of the plaintiff, the appeal being dismissed with costs at the close of the argument.

On the 29th of November a child of William Robinson, manager of the Gladstone House, Toronto, was stricken down with diphtheria and died the next day. The father, mother and another child were removed to the isolation hospital.

The temperance people and license holders of Toronto, besieged the city council on December 5th. The council decided by a vote of 14 to 2 to submit a by-law for the closing of all city bars at 7 o'clock every evening, to the citizens at the coming municipal elections.

It is rumored that an extensive foundry for manufacturing farming implements is about to be established in Ontario in opposition to the implement combine. The promoters are one or two wealthy manufacturers from Pennsylvania and several Canadians, among the latter being some of the Canadian Pacific railway magnates. It is said the great railroad is to be indirectly interested.

The Dominion government have closed their land office at Red Deer, and J. G. Jessup will go to Calgary for the winter. Since the office was opened in April last up to the 30th October, the end of the departmental year, 406 entries were made in the land office for homestead. This is only a sub-land office to Calgary, but judging from the number of entries made at both places Calgary ought to be the sub-office to Red Deer.

GENERAL NEWS.

Toronto World: Mr. Carling will, it is believed, succeed lieutenant-governor Schultz in Manitoba, in the meanwhile holding his seat in the Commons next session.

Snow is about the same depth at Calgary as at Edmonton and is slightly deeper at Regina, with consideradle drifts. On the stage route between Saskatchewan and Battleford it averg·s 16 inches in depth.

Antelope are very numerous along the railway line between Medicine Hat and Moose Jaw Every train reports seeing hundreds and even thousands, in bands of a hundred or more. They were never seen in such numbers in that district since the construction of the railway.

Dr. Lafferty, having returned to Calgary with restored health, is going to devote h·s whole time and attention to his profession. He has taken Dr. MacDonald into partnership, and their office has been removed to Dr. Lafferty's residence, where they are to be found day and night.

Mayor Lucas, of Calgary has opened an immigration office in Toronto. The first party of farmers delegated from the various districts in Assiniboia, Alberta and Saskatchepan, being sent out by the Assembly, arrived there on the 6th and will disperse to their own homes to begin work at once.

Friday evening about 9 o'clock fire broke out in Alex. Walker's store at Mecleod, totaly destroying the building and contents. The saddlery establishment of Messrs. Carson and Shore was also threatened, but received little damage, and their stock has since been removed. Mr. Walker's losswill be about $9, 000, insurance of stock and building being about $3,000.

In speaking of the death of Jay Gould the St. James Gazette calls him a gambler millionaire and says; "The most typical marauder of the age is dead. In his reckless contempt for houor, justice, mercy or morality he transcends the great speculators of the world. He leaves $100,000,000 accumulated by gambling, swindling and fraud." All other English papers pnblish similar leading editorials on the subject of Gould's death.

EDMONTON BULLETIN, DECEMBER 12, 1892.

WHEAT OR MIXED FARMING.

The Regina Leader remarks editorially as follows :

"Truth compels us to say that there is no comparison as a farming country between Alberta and Edmonton districts and the great Regina plains, which stretch for over 40 miles west of Moose Jaw to Qu'Appelle. Our wheat grades as No. 1 extra hard, and men sent up for it from Winnipeg, Montreal and Toronto, in preference to that raised in any other part of the Dominion. We learn that Mr. McBeth has written a letter to Mr. Sibbald in which he states that no such wheat was ever produced as that from the great Regina plains. An energetic and successful farmer said the other day: "They say the prairie ain't nice; I grant you it is nicer to live in the bluffs and have trees, but if I want to make money by farming give me the plains." Strange to say this is nothing more or less than the opinion expressed by the English farmers' delegates. We tell intending settlers to make the mistake of listening to interested parties. Let them come and see for themselves, and they will very soon find that if theg want to made money by farming, that the kind of country to choose is the open prairie kind."

This paragraph is a fair sample of the brand of truth usually furnished its readers by the Leader. It contains three plain and direct falsehoods. 1st. That there is no comparison (in the sense of equality of goodness on the part of Edmonton) between the Edmonton and Regina districts; 2nd. That no such wheat was ever produced as that from the Regina plains; and 3rd, That if men want to make money by farming the best kind of country is open prairi. As to falsehood No. 1. The Edmonton district has secured yields of wheat equal to the highest ever recorded for the Regina district. Its average yield per acre for the past ten years is much higher. Its recorded yields of oats, barley and potatoes have never been approached by the Regina district or any other section of Manitoba or the Northwest, except perhaps the Red River valley, and have never been excelled even there. As to falsehood No. 2. This is entirely gratuitous and also harmless. Every one knows that the wheat raised in Manitoba and the Northwest is the best in the world, and there is no need to quarrel as to which section yields the best quality. But it may not be out of place to point out the often stated fact that wheat, with all other grains, reaches the greatest perfection nearest the northern limit of its practicable growth. As Edmonton is upwards of 200 miles north of Regina, and as the growth of wheat is altogether practicable there, the quality of perfect grain grown there cannot be under the laws of nature and is not as a matter of fact, inferior to that grown at Regina. Although Edmonton is some 700 miles further from Toronto than Regina, and therefore the transport of grain costs something more, last year Edmonton farmers got as many cents a bushel for their wheat as did those of Regina for export to Toronto, showing that, at least, it was not inferior. As to falsehood No. 3, regarding the comparative profits of farmers on the plains and in the partly timbered Edmonton district. With wheat at the low figures of recent years every one knows that mixed farming, for which the Edmonton district is particularly adapted, is more profitable than wheat farming, which is the leading, if not the only branch of farming industry, on the plains. It is for this reason that the principal emigration to Edmonton during the past year has been from the Red River valley in Dakota and the Palouse country in Washington and Idaho, the two leading districts in the United States for wheat growing. These people have had enough of working for the railroad companies, the money sharks and the machinery men by raising wheat only, and they are now striking for a region where, owing to varied natural advantages, they have a chance of doing a little of something for themselves.

GENERAL NEWS.

The Marchioness of Derby telegraphs that the Earl of Derby is making good progress towards recovery. His condition, she adds, is not serious.

Sweden has increased her duties upon British goods. Hence a considerab e decrease in British exports of cutlery and iron and steel manufactures to that country.

Acting Secretary Splending has decided that a Chinese boy, 14 years old, can enter the United States for the purpose of being educated proided he has a certificate of permission from the Chinese government.

W. D. Owens, superintendtnt of immigration, says that 579,662 immigrants arrived in the United States during the fiscal year ending June 30th, 1892, of whom 2,301 came in violation of the law and were returned to their homes. Of this number 1,763 were contract laborers. Sixty thousand Canadians come to the U. S. every spring and return to their homes in the fall to spend their earnings in the country. Mr. Owens thinks it might be advisable to extend the 50 cent head tax to all immigrants coming over our northern and southern borders, wages being herd on an average 40 per cent higher than in Canada, and a hundred per cent higher than in Mexico.

The largest audience ever gathered to hear a theosophical lecture filled Chickering Hall, New York, to welcome Mrs. Annie Besant, the great high priestess of theosophy. The audience packed the house and hung breathlessly on Mrs. Besant's word. Even skeptics were moved by the magnetic eloquence of her lecture on "Death and After." She declared death was a legend, a superstition, a medieval belief. There is no such thing as death, she declared. What is called death is but a new birth. She condemned ordinary forms of spiritualism, and declared theosophy did not countenance them. There are spiritual phenomena connected with theosophy, but not the humbug and quackery imposed upon the people so continuously. In the audience was a young disciple of theosophy, who had come to New York from New Zealand just for a ten minute audience with Mrs. Besant. He arrived on the 2nd and left for London on the 4th

GENERAL NEWS.

John Sweetman, an Irish Home Rule member, who is in St. Paul, says Home Rule is sure to carry ultimately even should Mr. Gladstone not succeed, but he thinks the present is the time to do it.

The Toronto Street Railway Company have informed the city that the whole of the system will be operated by electricity next year. This will mean the repaving next year of thirty odd miles of track at a cost of over $300,000.

W. J. Ross, who has been superintendent of the C. P. R. Bridges and buildings for a number of years, has placed his resignation in the hands of the company; with a view to engaging in business in Winnipeg. Mr. Ross leaves the company's service at the end of the year.

The knowledge that parliament is about to meet early is inducing the promoters of companies to hurry filing applications for incorporation. Calgary will ask power to build a bridge from the mainland to Island park, Bow River, adjoining the town; also to dam the Bow and Elbow rivers for the purpose of creating water power and to construct a street railway.

Ogilvie's elevator, Virden, one of the best of the company's elevators in Manitoba, was totally destroyed by fire on the 5th inst. together with all the machinery and contents, the latter including about 20,000 of wheat. All of this wheat belonged to the company, with the exception of a couple of thousand bushels stored by private parties. The fire started in the roof of the engine house at five o'clock and was communicated by means of the driving belt to the roof of the elevator proper, and soon the whole structure was a mass of flames and nothing could be saved. The total loss is estimated at about $30,000, a third of which is on the grain and the balance being on the building and machinery. It is said here that the loss is fully covered by insurance.

To all desirous of inspecting and priceing the goods a cordial welcome will be given, and I am confident that my values will satisfy the keenest buyer.

Supt. Jarvis, of Maple Creek, has been transferred to Calgary. Supt. Griesbach, of Fort Saskatchewan, will replace Supt. Jarvis at Maple Creek.

Leo Gaetz, of Red Deer, sold his saw and planing mill to Mr. McMurray, of Manitoba. Mr. McMurray has engaged a number of men to go into the bush to cut logs during the winter. He expects to cut this coming season about 1,000,000 feet of lumber.

Many farmers are drawing coal to Red Deer from the coal banks east of that place, and find a ready market for it. Although the coal is taken from near the surface where it has been exposed for years and centuries. it turns well and is said to be equal to the Galt coal.

The Scottish Sport, a Glasgow paper, reports a football match having been played between the Sixth George Watson's College and the Sixth Royal High School, Edinburgh. Watson's College winning by 15 goals and 10 tries, 95 points to nil. This is perhaps as high a score as ever seen.

Tne Washington Post, commenting on the annexation talk in Canada, says; It is to be noted that the annexation sentiment in the United States has not assumed notable proportions. What might happen were the Canadian parliament to lay a petition before congress for admission to the union it is hard to tell, probably Uncle Sam, in pursuance of his manifest destiny, would be disposed to take our neighbors in. It is not impossible that England might have something to say about it; what then?
